

Optiv's Executive Briefing Centers

Collaborate. Innovate.
Secure Business Outcomes.

Why the EBC?

At Optiv, we understand that discussions about cybersecurity are becoming standard in boardrooms all over the world. Optiv's Executive Briefing Centers present an opportunity to interact and strategize with key influencers around your unique business needs. These personalized engagements put you at the center of Optiv's ecosystem of people, products, partners and programs. Unparalleled cyber experts assemble to explore your unique cybersecurity goals and challenges. We are eager to get to know you and learn what your organization needs so we can partner to advise, deploy and operate adaptive, holistic cybersecurity solutions that drive business outcomes.

A single EBC can significantly reduce the time to properly diagnose a problem, develop a solution and roadmap actionable steps to secure greatness.

At Optiv, we manage cyber risk so you can secure your full potential.

"In a world where digitization is quickly becoming the norm, cybersecurity is vital to securing digital transformation efforts, risk mitigation and value protection. Optiv EBCs are the perfect catalyst for intimate, focused client conversations around business outcomes and how we can partner on a journey of security and resilience."

— Kevin Lynch, Optiv CEO

Secure Business Outcomes.

Manage cyber risk with an outcome-based approach to accelerate business progress.

Ensure Compliance

Navigate complex regulatory environments to meet evolving obligations and standards.

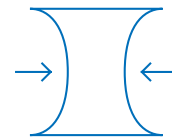

Protect Your Business

Secure your enterprise with identity modernization and project against persistent threats.

Maximize Effectiveness

Optimize your cybersecurity tech stack, resources and investments.

Build Resilience

Strengthen cyber readiness, protect critical assets and enhance recovery capabilities.

Components of an Executive Briefing

“The orchestration of the event was first class, and the material was very valuable. The account team did a great job polling the teams ahead of time to make sure we had the right topics, and that the concerns of the customer were front-stage.”

— Chief Security Architect, Retail Company
