How to Subscribe to Receive Notification of Change in Sub-processors:

To subscribe to receive notifications of new Sub-processors, email privacy@optiv.com. Optiv shall provide notification of new Sub-processor(s) before authorizing any new Sub-processor(s) to Process Personal Data in connection with the provision of the applicable service to those who have subscribed to receive such notifications.

Right to Object to New Sub-processor:

In order to exercise its right to object to Optiv's use of a new Sub-processor, one must notify Optiv promptly in writing within ten (10) business days after receipt of Optiv's notice in accordance with the mechanism set out above. In the event of objection to a new Sub-processor, and that objection is not unreasonable, Optiv will use reasonable efforts to make available a change in the service or recommend a commercially reasonable change to the objecting party's configuration or use of the service to avoid Processing of Personal Data by the objected-to new Sub-processor without unreasonably burdening the objecting party. If Optiv is unable to make available such change within a reasonable time period, which shall not exceed thirty (30) days, Client may terminate the applicable order for professional service with respect only to those aspects of the professional service which cannot be provided by Optiv without the use of the objected-to new Sub-processor by providing written notice to Optiv.
